

Calibration Level Confirmation

JJ Calibrations, Inc.

Dear Customer:

We need to update our database as to the type of calibrations you will routinely require. Please read the following descriptions and mark the category that best fits your needs. We will maintain this information in our database, thereby avoiding the need to confirm your requirements each time calibrations are needed. JJ Calibrations defines calibration as a comparison of your unit to standards of known values maintained by JJ Calibrations. It does not necessarily include adjustment. Many calibration procedures do not include adjustments. Adjustment procedures are the responsibility of the customer.
